Summary

Computer Science Engineering student (Class of 2027) with hands-on expertise in Full Stack Web Development. Experienced in building scalable web applications using MERN Stack (MongoDB, Express.js, React.js, Node.js) with focus on user experience and practical problem-solving. Strong foundation in core computer science concepts and real-world application development.

Education

Bachelor of Technology in Computer Science & Engineering

2023 – 2027

Seth Jai Parkash Mukand Lal Institute of Engineering & Technology

CGPA: 8.2 / 10

Skills

Languages: C, C++, Python, JavaScript, Node.js, Express.js

Frontend: HTML, CSS, React.js, Bootstrap, Tailwind CSS

Databases: MongoDB, MySQL

Core CS Subjects: Operating Systems, DBMS, Computer Networks, OOPS, DSA

Tools & Platforms: Git, GitHub, VS Code

Projects

SafeRoute AI – Women Safety Navigation App

React.js, Firebase, JavaScript, CSS, Vite

- Developed a smart route suggestion web app using crime-prone areas, street lighting, and time of day to recommend safer paths for women, addressing gaps in conventional navigation tools like Google Maps.
- Selected as a **Top 250 Finalist** at the **Elite Her Hackathon**.

AI-Based Internship Recommendation Engine (*Major Project – Ongoing*)

React.js, Python, MongoDB

- Building an AI-powered platform that analyzes a student's skills and resume to recommend the most relevant internship opportunities with a percentage match score.
- Implemented user authentication and a personalized dashboard; currently developing the AI recommendation and resume parsing modules.

Hand Gesture Laptop Controller

Python, OpenCV, MediaPipe

- Developed a real-time gesture-based laptop controller that enables users to control system functions using hand gestures.
- Implemented hand-tracking to perform actions such as cursor movement, clicks, scrolling, and volume control through intuitive gestures.

Achievements & Extracurricular

Gen AI Ready Naari Program

Remote

Participant (Top 3 in PepsiCo Project)

2024

- Completed an AI-focused program for women; created awareness reels on inspiring women leaders using Generative AI tools.
- Secured **Top 3** position in the associated **PepsiCo project** out of all participating teams.

AR Club (Co-Convener)

JMIT

- Organized **Ideathon Hustle** (April 2026), a problem-solving event for students to present innovative solutions.
- Co-organized **Azure Developer Day** with a Microsoft speaker to introduce students to cloud technologies.

TechnoQuest: Think Act Win

Technovanza

Organizer

2025

- Co-organized TechnoQuest at the college annual technical fest, managing event execution and coordination.

JMIT Chronicles

YouTube

Anchor & Content Creator

2024

- Anchored a robotics-focused video production; published on YouTube, combining technical knowledge with presentation skills.
